# **2030 Agenda on Sustainable Development: Setting the stage**

UNITED NATIONS

الاسكوا  
**ESCWA**

**Ms. Roula Majdalani**  
Director Sustainable Development Policies Division  
(SDPD)

# Sustainable Energy in the Sustainable Development Agenda 2030

**SDGs will stimulate actions over the next 15 years in 5 areas of importance**

**17 SDGs, 169 Targets, 240 Indicators**

# SDG 7: Targets & Means of implementation

**#7: Ensure access to affordable, reliable, sustainable and modern energy for all by 2030**

**Target 1:**

Ensure universal access to affordable, reliable and modern energy services.

**Target 2:**

Increase substantially the share of RE in the global energy mix.

**Target 3:**

Double the global rate of improvement in EE.

a) Enhance international cooperation to facilitate access to clean energy research and technology, including RE, EE and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology.

b) Expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in accordance with their respective programs of support.

# Sustainable Energy in the Sustainable Development Agenda 2030

# HLPF : Central platform for follow-up and review of the 2030 Agenda and the SDGs

---

- GA Resolution 70/1 “Transforming our world: the 2030 Agenda for sustainable development” calls on regional and sub regional commissions and organizations to support member countries in follow-up and review at the regional and sub regional levels.
- The Voluntary National Reviews (VNRs) process has already been initiated in the Arab region:
  - For 2016: Egypt and Morocco
  - For 2017: Jordan and Qatar
  - For 2018: **Bahrain, Egypt (for the 2nd time), Lebanon, Palestine, Qatar (for the 2nd time), Saudi Arabia, Sudan, and the United Arab Emirates.**

## HIGH-LEVEL POLITICAL FORUM ON SUSTAINABLE DEVELOPMENT

2016

# Revised Outcome Statement for Consultation & Submission to AFSD and HLPF 2018

---

## Key Challenges in the Arab Region:

### *Develop more sustainable energy systems to meet development goals :*

1. Improve access to electricity/Clean energy in rural areas & LDCs
2. Increase substantially energy productivity / energy efficiency
3. Make renewable energy meet the very large potential of the region

## **Priority Actions**

1. Develop suitable policies & institutional frameworks
2. Develop institutional capacity
3. Strengthen local governance
4. Manage natural resources more sustainably & in a holistic manner
5. Develop more rational use of the region's energy resources
6. Enhance interregional cooperation

## **Means of Implementation**

1. Promote investments in clean technologies / financial market & local market enablement
2. Develop/reinforce technology dissemination & transfer
3. Initiate/ reinforce capacity building programs
4. Develop/reinforce energy data, indicators and analysis systems
