Set up

Six steps of the road map

- ***Establishing national mechanism for collaboration***
- ***Assessing readiness to report on global SDG indicators***
- ***Developing regional, national and sub-national indicators***
- ***Reporting on global SDG indicators***
- ***Building statistical capacity for indicators reporting***
- ***Communication and dissemination of SDG statistics***

National mechanism for collaboration

- ***NSO as national focal point for SDG statistics/data***
- ***Implementing international standards***
- ***Collaboration among data producers***
- ***Collaboration with policy makers***
- ***Understanding national development strategies***

Assessing readiness for global reporting

- *Identify data providers*
- *Identify data and methodological gaps*
- *Consider data disaggregation requirements*

Regional, national, sub-national frameworks

- *Is there existing sustainable development monitoring framework?*
- *Would the global framework fit the needs?*
- *Adaptation*

Reporting on Global SDG indicators

- ***National data reporting platform:***
 - ***Data collection portals***
 - ***Production databases for indicators***
 - ***Dissemination portals***

Building capacity for indicators reporting

- *Assessment of capacity building needs (country level)*
- *Indicators that can be produced*
- *Seek countries with similar needs*
- *Seek funding and substantive resources*
- *Platform for exchange of experiences*

SDG data dissemination and communication

- ***Communication strategy for national SDG reporting***
- ***Defining key stakeholder groups***
- ***Need dissemination methods and channels***
- ***Importance of communication***

- ***Communicate the SDG strategies***
