- First round desk review shared October 2019.
- Second round desk review, following the submission of the gaps analysis and robust outline, shared by reference group January 2020.

Statistical databases and indices as agreed (i.e. priority statistical data sources presented in the inception report)

# SUB- POPULATIONS

# Overview of Discussion

---

## Approach

In the following slides, we'll present different sub-populations of girls and women and discuss the most pressing issues for each population per the four pillars.

We'll then ask the attendees 1) if data meeting the inclusion criteria exist and 2) if they can send us resources to address these issues.

## **Women and girls with disabilities**

- Any existing data meeting the inclusion criteria that wasn't already included in the working draft chapters or shared as part of your feedback?

## **Older women (i.e. after reproductive age, 50+ years old)**

- Any existing data meeting the inclusion criteria that wasn't already included in the working draft chapters or shared as part of your feedback?

## Refugees, IDPs, and migrants

- Any existing data meeting the inclusion criteria that wasn't already included in the working draft chapters or shared as part of your feedback?

## **Lesbian, bisexual, and transgender women and girls**

- Any existing data meeting the inclusion criteria that wasn't already included in the working draft chapters or shared as part of your feedback?

## **Ethnic and religious minorities**

- Any existing data meeting the inclusion criteria that wasn't already included in the working draft chapters?

## **Unaccompanied and separated children**

- Any existing data meeting the inclusion criteria that wasn't already included in the working draft chapters or shared as part of your feedback?

# Discussion: Sub-populations

---

## **Any other sub-populations?**

- Any existing data meeting the inclusion criteria that wasn't already included in the working draft chapters or shared as part of your feedback?

# CROSS-CUTTING ISSUES

## **Open discussion with all attendees**

- What are the biggest cross-cutting issues that need to be flagged as part of this study and what are the best way of flagging them?

# Next Steps

---

## Reviewers to provide...

- Written feedback on sub-populations and cross-cutting issues
- Additional documentation to help further address these areas
