

2 (I). Financial resources

The Economic Commission for Western Asia,

Having compared its intended future work programme with budgeted financial resources,

Convinced that it is essential to increase substantially the financial resources allocated to it to enable it to carry out its duties and responsibilities within the framework of an effective and dynamic work programme,

1. Calls upon the Secretary-General to submit to the General Assembly at its twenty-ninth session a budget for the Commission commensurate with its present and anticipated needs;

2. Also calls upon the Secretary-General to transmit to the General Assembly the request of the Commission that favourable consideration should be given by the Fifth Committee to increasing substantially the resources of the Commission.
