Taking into account the poor economic and living conditions which prevail among the Palestinian people in the occupied territories and which are deteriorating daily as a result of the racist Zionist practices directed against these people, which are violations of the most elementary principles of human rights and international documents and which aim at changing human, geographical, social, cultural and economic characteristics,

1. Decides that it is necessary to appeal to the Economic and Social Council for prompt action to take practical measures to ensure the improvement of the economic and social conditions of the Palestinian Arab people in their homeland;

2. Requests the Executive Secretary to notify the Secretary-General of the United Nations of the concern of the States members of the Commission and their desire that he take prompt steps to ensure the implementation of the provisions of the preceding paragraph.
