Background

Objectives

<p>1 (English) E/ESCWA/STAT/2001/2</p> <p>This booklet provides a statistical portrait of the different roles of women and men in Tunisia based on the original Arabic document that was produced by the Ministry of Women and Family Affairs. The document portrays the status of women in Tunisia as compared to men by describing gender gaps and evaluating equity trends in all areas - social, economic, political and public. The booklet serves as an awareness-raising tool among policy makers, shedding light on the importance of improving the status of women through the adoption of corrective measures in women-related issues.
