

Resolution

2005/13

2010 World Population and Housing Census Programme

The Economic and Social Council,

Recalling its resolution 1995/7 of 19 July 1995, in which it requested the Secretary-General to proceed with the development of the 2000 World Population and Housing Census Programme and urged States Members of the United Nations to carry out population and housing censuses during the period 1995-2004, as well as its earlier resolutions endorsing previous decennial programmes,

Having reviewed the efforts made by Member States to carry out population and housing censuses as part of the 2000 World Population and Housing Census Programme and also the activities of the United Nations and funding agencies in support of national efforts in that regard,

Recognizing the increasing importance of the 2010 round of population and housing censuses for meeting data needs for the follow-up activities to the Millennium Summit, held in New York from 6 to 8 September 2000, the International Conference on Population and Development, held in Cairo from 5 to 13 September 1994,¹ the World Summit for Social Development, held in Copenhagen from 6 to 12 March 1995,² the Fourth World Conference on Women, held in Beijing from 4 to 15 September 1995,³ and the United Nations Conference on Human Settlements (Habitat II), held in Istanbul from 3 to 14 June 1996,⁴ and to other regional and national meetings,

Considering the importance of the population and housing census to the preparation of a meaningful core set of national data and information necessary for socio-economic planning and governance,

Stressing that, for a country as a whole and for each administrative area therein, periodic population and housing censuses are one of the primary sources of data needed for effective development planning and for the monitoring of population issues and socio-economic and environmental trends, policies and programmes,

1. *Supports* the 2010 World Population and Housing Census Programme, consisting of a number of activities aimed at ensuring that Member States conduct a population and housing census at least once during the period from 2005 to 2014;
