

**CHAPTER IX**

**INDUSTRY**

---

**Chapter IX:  
Industry**

This chapter provides industrial statistics on manufacturing, mining and quarrying in ESCWA member countries, for the period 2002-2009. It contains tables on the numbers of establishments, employees and total investments in industries, classified in accordance with the International Standard Industrial Classification (ISIC) Rev.2 or Rev.3. The chapter also presents statistics of output, value added, wages and salaries of employees in industrial sectors in ESCWA member countries, in US dollars, in accordance with ISIC Rev.2 or Rev.3.

Data were collected from national and official sources, whenever available, and from the databases of the United Nations Industrial Development Organization (UNIDO) and the Arab Industrial Development and Mining Organization (AIDMO). They were also drawn from a number of specialized publications issued by Arab and international organizations.

Tables IX-1 and IX-2 present the share of industry and level of industrial output in gross domestic product (GDP) in ESCWA member countries during the period 2006-2009. In 2009, manufacturing amounted to 10 per cent of GDP, against 35.4 per cent for mining and quarrying. In addition, the average value added of the manufacturing industry in member countries amounted to US\$430 per capita in 2009, while that of mining and quarrying was US\$1,491 per capita over that same reference year in 2005 constant prices.

Table IX-3 shows the average wage of an employee in manufacturing industries. Data indicate that wages of employees have increased in the manufacturing industry in all ESCWA member countries. In 2008, the highest average wage amounted to some US\$17,630 in Kuwait; followed by Qatar US\$12,013.

Tables IX-4 and IX-5 provide data on the total number of employees and establishments, wages and salaries, output of manufacturing, and value added for the manufacturing as well as mining and quarrying industries in ESCWA member countries.
